### **What the Workshops discuss**

The purpose of the workshops is to guide potential applicants through the key steps of the NSRF applications process, and provide insights and feedback that will enable applicants to submit eligible and effective applications. They will provide information but not specific advice relating to individual applications.

### **Is this the right workshop for me?**

Examples used in the workshop will generally be tailored to the not-for-profit sector but other eligible organisations, such as Local Councils, are welcome and encouraged to attend.

This workshop has been designed for those involved with the development and completion of applications under the National Stronger Regions Fund. If you are working on an application under Round 2, this workshop will be particularly timely.

The workshops will also provide participants with valuable feedback about effective grant writing in general, which will be applicable for all funding opportunities. If you want to improve your grant writing skills and are interested in learning more about the NSRF for future rounds, this workshop will be of value to you too.
